interactive online tool is underpinned by a continuously updated data repository and presented on a dynamic platform.

## **Atlas of Migration | Knowledge for policy**

The Atlas includes data and indicators on demography, migrant stocks and flows, legal migration, asylum, irregular migration and naturalisation. For non-EU countries this is complemented by sections on development and humanitarian aid, remittances and socioeconomic characteristics, while for EU Member States by a section on migrant integration.

## **Atlas of Migration 2018 | EU Science Hub**

See Human migration.. Human migration is the movement by people from one place to another, particularly different countries, with the intention of settling temporarily or permanently in the new location. It typically involves movements over long distances and from one country or region to another. Historically, early human migration includes the peopling of the world, i.e. migration to world ...
