A renowned potter, an entrepreneur, a gardener, a photographer, a cook, a beekeeper, Palmer has over the course of three decades caught the attention not only of the countless people who collect and use her ceramics but also of designers and design lovers, writers, and fellow artists who marvel at her example. Now, in her first book, she finally tells her story, in her own words and images, distilling from her experiences lessons that will inspire a new generation of makers and entrepreneurs. Life in the Studio is as beautiful and unexpected as Palmer's pottery, as breathtakingly colorful as her celebrated dahlias, as intimate as the dinners she hosts in her studio for friends and family.
