The Mercedes Benz 300 SL

The Mercedes-Benz 300 SL (chassis code W 198) is a two-seat sports car that was produced by Mercedes-Benz as a gullwinged coupe (1954–1957) and roadster (1957–1963). It was based on the company's 1952 racer, the W194, with mechanical direct fuel-injection which boosted power almost 50% on its 3-litre overhead camshaft straight-6 engine. Capable of reaching a top speed of up to 263 km/h ...

Mercedes-Benz 300 SL - Wikipedia

Mercedes-Benz 300 SL Coupé. The 300 SL production sports car presented in 1954 was based on the successful competition version of 1952. Its space frame weighed only 110 lbs. and was particularly sturdy, but did not permit the fitting of normal doors because of the high frame side members. With its characteristic upward-opening doors, the dream car of the 1950s popularly became known as the ...

The Mercedes-Benz 300 SL is a rare sports car that was manufactured by Mercedes-Benz from 1954 to 1963. The 300 SL has two versions, the first being the Coupe that is streamlined and cheaper, while the second is the Roadster that features more expensive parts and a more powerful engine. Because the company only produced this model for a short period of time, there were only a few of the 300 SL ...

A lavishly illustrated tribute to one of the most beloved European cars of all time. For nearly seventy years, no car has moved the lovers of classic cars more than the 300 SL. A legend since its launch in 1954 as a gullwing coupe, the 300 SL has been seen as the very model of what a sports car can be, its style and beauty perfectly matched to its power and handling. This beautifully illustrated tribute volume brings together Hans Kleissl, one of the world's leading experts on the 300 SL, and former Daimler historian and Mercedes-Benz archive manager Harry Niemann. The resulting book captures the magic and mystique of the car through history, photographs, insights into its technological breakthroughs, and firsthand accounts of its storied run. There's no better gift for the passionate fan of the 300 SL.

In 1952 Mercedes-Benz astonished the racing world with the successes it achieved with its 300SL, exploiting an advanced space-type frame and aerodynamic body with gullwing doors. Already the subject of a Ludvigsen Library Series book, the racing 300SL inspired the creation of

## Download Ebook The Mercedes Benz 300 SL Book

a production version, which first took flight in 1954. The 300SL stunned critics and experts alike with its fabulous performance-more than 150 miles per hour-exotic looks and superb build quality. Not just a pretty face, the 300SL was also extremely successful in competition on both sides of the Atlantic. The original coupe was followed by a roadster version in 1957; in all, 3,258 were made. Drawing on his unmatched archive of Mercedes-Benz photos, including coverage by Rudy Mailander and Edward Eves of the 300SL production line, Karl Ludvigsen presents the 300SL in all its glory. He also draws on his own experience as an owner of one of these great cars.

The 300 SL (W 194) is the first racing car with which Mercedes-Benz renewed its participation in international automobile racing in the postwar period. Top-ranking positions and triumphs, such as at the legendary twenty-four-hour endurance race in Le Mans or the Carrera Panamericana in Mexico, are not a long time in the coming and as early as 1952 secure a place for the Stuttgart-based make in the worldwide motor sports scene. The racing car achieved particular fame for its unusual gull-winged doors, which turn the production sports car 300 SL, introduced in 1954 and directly derived from the W 194, into one of the lasting icons in automobile history. The book provides exhaustive and authentic documentation of the technical development of the W 194 based on extensive research in the archives of Mercedes-Benz Classic: all of the races as well as the biography of each individual vehicle are presented with the aid of in part unpublished images and illustrations. Its high-quality design as well as its exquisite features make the book a true collector's item. (German edition ISBN 978-3-7757-4002-9)

... Register Mercedes-Benz 300 SL (198.040 & 198.043) of the 1400 cars built, included all the factory dates, original specification when delivered, pictures, present location and history, if known ...

In 1952, Mercedes-Benz astonished the world with its 300SL sports-racing cars, sleek coupes with startling, gull-wing doors. Based on the 300S production model but installed in a radical, tubular space frame, the 300SL was a tour de force of lightweight aerodynamic design. The later production 300SL has been well chronicled, the 1952 racing model has not, until now. This book portrays the amazing achievements of these tough cars and their epic victories at Le Mans and in the Carrera Panamericana. Extensive, unpublished photography superbly and intimately captured by Rodolfo Mailander show the 300SL at the Mille Miglia, Berne, Nurburgring and Le Mans. Rare Daimler-Benz archive photos also show the prototype, designed and built for the 1953 season and never raced. Every fan of racing and Mercedes-Benz will relish the pictorial revelations of this book.

A photographic homage to one of the finest cars ever build, now in a small format edition.

When Mercedes-Benz created its 300SL in 1952, the famed German automaker so outpaced its competition from Ferrari, Porsche and Jaguar that its design and engineering standards became the hallmark by which sports cars the world over would be judged for more than a decade. Trace this fantastic car's development from the first racers of 1952, through the production Gullwing coupe of 1954, the roadster, the

## Download Ebook The Mercedes Benz 300 SL Book

300SLR, and the W196 racers. Rare Daimler-Benz archival photos detail the models from prototype, to production, to racetrack. Sftbd., 10 x 10, 160 pgs., 50 b&w and 150 color ill.

Born 1906 in London as the son of an English mother and a German father, Rudolf Uhlenhaut was an engineer and designer for Daimler-Benz. He became famous for his achievements regarding the Silver Arrows, the 300 SL with the famous gull wing doors, the legendary Mercedes-Benz 300 SLR, known as the 'Uhlenhaut Coupé' and the various experimental C 111 versions well-known for several speed records. -- Uhlenhaut joined Daimler-Benz in 1931 after finishing his studies of mechanical engineering in Munich. In 1936 he took over as head of the racing department and conducted the Silver Arrows and Rudolf Caracciola to their 1937 European championship. Based upon the 300 SL 'Gullwing', initially a thoroughbred racing sports car, he created the road versions W198 and the smaller open-topped W121, both launched at the International Motor Sports Show in New York 1954. Though Uhlenhaut never owned a car of his own, his official company car, a 300 SLR with a top speed of 290 km/h became famous as the 'Uhlenhaut Coupé' the fastest car of its day authorized for road use! -- This first ever comprehensive biography of Rudolf Uhlenhaut, illustrated with many previously unpublished photographs, depicts his life and technical achievements, presenting a complete compilation of all the patents he filed and exploring their significance. It also draws a vivid picture of the person behind the technical innovations and tries to explore his character and motivation.

Complete coverage of the classic 300SL through the 190SL to the 'Pagoda roof' SLs of the 1960s. Filled with valuable information on exactly what is 100% original and authentic for every model and year. Contains 200 specially commissioned color photos detailing bodywork, interior and mechanical details.
