Acamprosate (brand name Campral) is used to help prevent a relapse in people who have successfully achieved abstinence from alcohol. It's usually used in combination with counselling to reduce alcohol craving. Acamprosate works by affecting levels of a chemical in the brain called gamma-amino-butyric acid (GABA).

Individuals do not get addicted.

Alcoholism is primarily a metabolic disease that should be treated nutritionally first.

The Vitamin Cure for Alcoholism: How to Protect Against ...

The Vitamin Cure for Alcoholism explains how patients can stop craving alcohol and restore their health. Two credible authors wrote this enlightening book. By the time he passed away at age 91', Abram Hoffer, PhD, MD, FRCP(C) had earned an international reputation for researching and developing orthomolecular psychiatry (as a complementary dimension of care), teaching other doctors and educating the public.

## Orthomolecular Treatment

Depression And Orthomolecular  
Alcoholism Treatment Depression  
often co-occurs with alcoholism.

Whether alcoholism causes  
depression or vice versa is open to  
debate, but what is certain is that  
orthomolecular medicine can alleviate  
depression also. Depression, in the  
eyes of the orthomolecular physician,  
is also as a result of molecular  
imbalances which can be righted with  
supplements and vitamins.

## Orthomolecular Alcoholism Treatment - Vitamins For Alcoholics

"Niacin is the most important single  
treatment for alcoholism, and it is one  
of the most reliable treatments. And it  
is safe, much safer than any of the  
modern psychiatric drugs. Niacin does  
not work as well when alcoholics are
