Moreover, we allow war, torture, violence, poverty, disease, discrimination, and domestic abuse to undermine it. The wounds inflicted by these great human ills sicken the individual psyche, tear families apart, and send shock waves through society. Natural disasters, too, can cause sudden and acute trauma.

The high incidence of traumatic exposure and the negative consequences for survivors and society highlight the need for effective and appropriate early interventions. The Crisis, Disaster and Trauma section organised two symposia which brought together a group of internationally recognised psychologists who have worked on the front line in supporting adults, young people and children exposed to war, natural and technological disasters and other traumatic events.
