supervision in different contexts including working with organisations and multicultural perspectives. Written by experienced clinicians, Vision and Supervision brings insights from analytical psychology to the supervisory task and encourages the supervisor to pay as much attention to what does not happen in a session as to what does. It offers a fresh perspective for analysts and psychotherapists alike, as well as other mental health professionals involved in the supervisory process.

Vision and Supervision: Jungian and Post-Jungian ...
Supervision in analytical psychology is a topic that until recently has been largely neglected. Vision and Supervision draws on archetypal, classical, and developmental post-Jungian theory to explore supervision from a variety of different avenues. Supervision is a critical issue for therapists in many training programmes.

Vision and Supervision: Jungian and Post-Jungian ...
I focus on the aim of facilitating a super-vision (with a hyphen), or a meta-perspective, for the supervisee, rather than construing supervision as in industry as a watching-over and checking process. I present a model to show how supervisees can be helped to become aware of what they may be overlooking.
