Level the air conditioner according to the
guidelines in the installation manual. The
air conditioner can also leak into the room
if gaps around the window let warm, moist
into the room, where it can condense on
the front of the air conditioner. Seal air
leaks in the cabinet or around the window
opening.

If the base collapses, the air conditioner could fall with it, causing property damage, product failure, and personal injury. Do not let the air conditioner run for a long time when the humidity is very high and a door or a window is left open. Take care to ensure that power cable could not be pulled out or damaged during operation.
