~~General music is informed by a variety of teaching approaches and methods. These pedagogical frameworks guide teachers in planning and implementing instruction. Established approaches to teaching general music must be understood, critically examined, and possibly re-imagined for their potential in school and community music education programs. Teaching General Music brings together the top scholars and practitioners in general music education to create a panoramic view of general music pedagogy and to provide critical lenses through which to view these frameworks. The collection includes an examination of the most prevalent approaches to teaching general music, including Dalcroze, Informal Learning, Interdisciplinary, Kodály, Music Learning Theory, Orff Schulwerk, Social Constructivism, and World Music Pedagogy. In addition, it provides critical analyses of general music and teaching systems, in light of the ways children around the world experience music in their lives. Rather than promoting or advocating for any single approach to teaching music, this book presents the various approaches in conversation with one another. Highlighting the perceived and documented benefits, limits, challenges, and potentials of each, Teaching General Music offers myriad lenses through which to re-read, re-think, and re-practice these approaches.~~

~~What choral conductor or soloist has not looked around for new ideas for warming up the voice? Here are 200 suggestions all at once! And these creative exercises do more than just warm up the voice: they help to relax the body, train the ear and develop an awareness of dynamics and rhythm. "Klaus Heizmann's collection is a wonderful new resource of ideas and techniques: practical, varied, challenging, relaxing and stimulating. I am always looking for new ideas, as I like to use a different set of warm-ups at every rehearsal with my choirs, and I tend to choose specific exercises to suit the repertoire for the day. This collection gives us 200 excellent "tools-of-the-trade"; they are clearly labeled, intelligently set out, well-designed and extremely useful." (Simon Carrington, Director of Choral Activities, New England Conservatory since 2001; Director of Choral Activities, The University of Kansas 1994-2001; Founder and co-director of the King's Singers 1968-1993)~~

This adaptation of the Music for Little Mozarts piano curriculum is designed to provide classroom music instruction for 4-, 5- and 6-year-olds in the preschool or kindergarten setting. It is a comprehensive approach to musical learning that develops singing, movement, and listening skills simultaneously with an introduction to musical styles and concepts. Ten detailed lesson plans are included along with reproducible activity pages for the children. The curriculum materials combine to create an exciting and imaginative atmosphere in the classroom. No keyboard instruction is included, but the classroom edition can serve as a recruitment class for the piano course. Perfect for teachers with limited preparation time, and all levels of musical experience. The comb binding creates a lay-flat book that is perfect for study and performance. The CD includes all of the songs, stories, and activities. For music teachers who want to offer this program, piano accompaniments are included as an optional enhancement to the lesson. Assessment materials and correlations to the National Standards for Music Education are also included.
