Turbocharge Windows development. Incredibuild's Virtualized Distributed Processing™ technology turbocharges product development by harvesting idle CPUs across your network and the cloud, while transparently emulating your local environment on remote machines. We turn every host in your network into a potential supercomputer with hundreds, even thousands, of cores.

Turbocharge Windows development - Incredibuild
Both MikeG wrote forewords for the new O'Reilly book Windows Developer Power Tools: Turbocharge Windows Development with More Than 140 Free and Open Source Tools by Jim Holmes and James Avery. A lot of these tools are on my tools list and I wanted to make sure the book was good if I was going to include a foreword, so I was on the technical reviewers team.
