The Woods BH9000 is too large for th Cub Cadet 7275 model

tractor. Woods does not produce any subframes for this application.

The BH7500 subframe is only compatible with the Woods BH7500

and BH6500 and will not match the BH9000. No matter how

experienced you are with a backhoe, the BH9000 is simply too

heavy and too powerful for the Cub 7275.
