The Yamaha XT225 was a Air-cooled, SOHC 4-stroke single Enduro motorcycle produced by Yamaha between 1996 and 2007. It could reach a top speed of 84 mph (135 km/h). Max torque was 11.8 ft/lbs (16.0 Nm) @ 6500 RPM. Claimed horsepower was 19.98 HP (14.9 KW) @ 8000 RPM.

Yamaha XT225: review, history, specs - CycleChaos

In 2006, the bike got a completely different model, still known as FZ1 in USA. In Europe and other markets, it was known as FZ1-S Fazer, which is semi-faired alongside a naked (without fairing) version which was known as FZ1-N. The main changes included a new chassis, suspension, bodywork and a completely different engine.

Since 1960, with the advent of musical electronics, composers and musicians have been using ever more sophisticated machines to create sonic material that presents innovation, color and new styles: electro-acoustic, electro, house, techno, etc. music. The music of Pierre Henry, Kraftwerk, Pink Floyd, Daft Punk and many others has introduced new sounds, improbable rhythms and a unique approach to composition and notation. Electronic machines have become essential: they have built and influenced the music of the most recent decades and set the trend for future productions. This book explores the theory and practice related to the different machines which constitute the universe of musical electronics, omitting synthesizers which are treated in other works. Sequencers, drum machines, samplers, groove machines and vocoders from 1960 to today are studied in their historical, physical and theoretical context. More detailed approaches to the Elektron Octatrack sequencer-sampler and the Korg Electribe 2 groove machine are also included.

A history of the motorcycle, including special features on sport, racing, touring, customised bikes, landmarks, records, and motorcycles in war and at the movies
